FIRE WORKS LET GO

Explosion Set Fire to a Tenement House and it is Thought Fourteen Persons Perished.

A NUMBER MORE OR LESS INJURED.

So Great Was the Force That a Boy Half a Block Away Was Lifted From His Feet.

The Hair of Passengers on a Trolley Car in Front of the Building at the Time Was Badly Singed.

Paterson, N. J., June 22.—Fourteen people are believed to have been killed and a number injured in a fire following an explosion among a quantity of fire works in the store of Abraham M. Rittenberg. The store was on the ground floor of a four-story frame tenement building. The cause of the explosion is not known. The property loss will not exceed \$50,000.

A number of people received minor injuries, but went to their homes. The explosion occurred in the afternoon, and many of the occupants of the building were at dinner.

Ten families occupied flats in the building. So great was the force of the explosion that a boy playing in the street half a block away was lifted from his feet and hurled against a iron fence, which was badly broken. A trolley car was directly in front of the building when the explosion occurred. The burst of flame blown out the windows, scorched the sides of the car and singed the hair of the passengers.

Escape Cut Off.

A number of those who were on the upper floors of the building when the explosion took place were either stunned and then burned to death, or found escape cut off and were suffocated. After the fire broke out there was a succession of smaller ones and then came a second big explosion which was sufficed and degraded any possibility of escape. Every window seemed to be emitting flame within a minute after the first explosion. Mrs. Williams, her clothing on fire, leaped from the window to the yard below. Her dead body was dragged out of reach of the flames, but the flesh was roasted and dropped from the bones. Her husband's body was a crip and she is supposed to have remained locked in the room with safety in an effort to save her life. She was burned to a crisp in his bed.
